Tools & Deployment: Git, GitHub, Postman, VPS Deployment

PROFESSIONAL EXPERIENCE

MERN Stack Developer, Zaikest

January 2026 - May 2026

- Built and maintained full-stack business applications with React.js, Next.js, HTML, CSS, JavaScript, Tailwind CSS, and Bootstrap, including core e-commerce workflows.
- Designed and implemented REST APIs with Node.js and Express.js for frontend features and application data flow.
- Implemented JWT authentication and authorization to protect user data and sessions.
- Integrated and debugged external APIs to maintain reliable communication between application services.
- Optimized application performance and scalability through targeted improvements to support faster application response times.
- Managed version control and collaboration workflows using Git and GitHub.

KEY PROJECT

E-commerce Web Application, Zaikest

zaikest.com

- Developed a scalable full-stack MERN e-commerce platform with an admin dashboard.
- Implemented product management, cart, checkout, and order processing functionality.
- Built JWT-based authentication and authorization with protected application access.
- Designed REST APIs for users, products, and orders using MVC architecture and CRUD operations.
- Integrated payment gateway and inventory APIs to support reliable transactions and stock workflows.
- Improved application performance by 30% through optimization techniques, achieving faster page load times.

EDUCATION

BSIT - Bachelor of Information Technology

Shaheed Benazir Bhutto University SBA
